

## Map of the roads in the St Day area owned by West Country Minerals as of 2015

Most, if not all, of the other roads are also privately owned and the responsibility of the utilities laid under them falls on the provider concerned as the Highways Authority confirm ([Doc 51](#)). The WATRS Adjudicators decision that the small part of Lower Goongumpas Lane shown **green** below is my / our responsibility rather than the utilities (SWW) is absurd but SWW rely on his decision.. Please Note that West Country Minerals sold the lane shown **yellow** in 2020.
